

Lehigh Athletics Vision Statement

On our campus ...

We see athletics as a philosophically embraced and increasingly respected participant in the learning experience;
We see an athletics administration that is recognized for its potential to contribute to the University planning processes;
We see an athletics administration that is a valued participant in extra-departmental priority initiatives;
We see athletics as an integral partner in reshaping the social atmosphere on our campus;
We see the athletic facilities as a focal point of student activity and student (and faculty/staff) recreation;
We see a program that emphasizes and supports “wellness” and life sport opportunities for all students and the University community by educating in and through physical activities;

Beyond our campus ...

We see an intercollegiate program that consistently achieves success among peers and that earns the respect of those who observe our teams;
We see Lehigh as a leader within the Patriot League;
We see increased attention to our athletic successes on the part of increasing numbers who wonder how we do it;
We see our athletics programs, coaches, and student-athletes contributing actively as models within our community;

Within our staff ...

We see professionals committed to students and their personal development;
We see professionals committed to achieving success;
We see professionals committed to student-athlete academic achievement;
We see professionals who know how to get the job done and yet are constantly searching for a better way;
We see coaches and staff who earn respect from athletes, parents of athletes, peers, and University colleagues for their professional competence and for their personal caring;

And in our students ...

We see student-athletes more diverse in background than our student body, achieving their maximum potential, and enjoying their experiences;
We see student-athletes who excel on and off the field and who are appropriately recognized for their achievements;
We see pride in our facilities, our teams, our staff and our achievements;
We see student-athletes who are student leaders making a difference on and off campus;
We see students who appreciate athletics and student-athletes and who enjoy sharing the athletic opportunities and experiences offered at Lehigh;
We see students who are growing from their athletics experiences and who will maintain that relationship with Lehigh in the years to come.
